### Finance Schedule Summer 2021

Register via phone: 412-788-7546 or online at: [www.shopcommunityed.ccac.edu](http://www.shopcommunityed.ccac.edu).

#### Economic Considerations for Stock And Real Estate Investors

It is important to know where you are at in short, medium and long cycles before you enter into, exit or change an investment. This course will teach students to identify trends that affect investments in stocks and real estate. Students will learn how to consider uncontrollable risks, navigate economic, fiscal, monetary and political situations, consider trends before they develop and learn to identify the indicators of market highs and lows. This course will help students locate and evaluate information that will lead them to increase risk and decrease risk at the appropriate time.

Campus	Section #	Cost	Sessions	Time	Day of Week	Start Date	Instructor
Virtual Campus	YCH-067-1215	\$39	1	06:00PM-07:00PM	M	07/12/21	Suchy

#### How to Build Wealth in Good Times and Bad

This course will teach how to build wealth from a starting point without skills, connections or money. Students will learn how to control costs, increase their personal income, identify and invest in assets, make wise choices about education and training, evaluate financial risk and identify the skills that they have to build their own business. Wealth building involves some combination of personal effort, education and training, investment income, profits from the sale of products and services and the ability to control costs. Not every person needs to engage in every type of activity, but this course will look at the possible inputs for wealth building. This understanding will enable the student to identify and take the specific steps necessary to build wealth as appropriate for their own unique skillset and goals.

Campus	Section #	Cost	Sessions	Time	Day of Week	Start Date	Instructor
Virtual Campus	YCH-068-1215	\$39	1	06:00PM-07:00PM	R	07/15/21	Suchy

#### How to Start Investing in Stocks and Options

This course will introduce students to investing in stocks and options in cash, margin and IRA accounts. Students will learn about fundamental and technical analysis, trade management, hedging, leverage, cycles and position sizing. The course will primarily focus on short and medium duration swing trading as well as longer duration investing, but concepts covered will be applicable for day trading as well. This course will help students learn to manage their own investments, learn to identify opportunities and build wealth in the stock market.

Campus	Section #	Cost	Sessions	Time	Day of Week	Start Date	Instructor
Virtual Campus	YCH-069-1215	\$39	1	06:00PM-07:00PM	T	07/06/21	Suchy

**Social Security--What You Need to Know**

Boomers close to retirement need to know, now more than ever, about Social Security. There is so much more than deciding whether to take benefits at 62 or 66. This "safety net" is a guaranteed, inflation-protected source of income in retirement, and boomers should know how it works and how it fits into their future retirement income streams. In this informative seminar they will learn about the role of social security in your overall retirement plan. Topics include how it works, boosting benefits by increasing current earnings, strategies for maximizing lifetime benefits, coordinating spousal benefits, special issues for women, taxes on benefits, Medicare and long-term care, related programs and the mechanics, history and financing of the Social Security system.
