Advanced Fly Casting Techniques

Designed for the fly angler who wishes to refine their fly-casting techniques to effortlessly cast at all distances and to comfortably present flies when faced with on the water obstacles and situations. Specific topics to include: casting tighter loops, learning the single and double haul and when to use them, casting a fly in tight quarters, casting longer distances, dealing with wind, casting weighted flies and sinking lines, fly casting from a seated and / or kneeling position, casting a fly with accuracy, roll casting techniques, and specific presentation casts. Beginner or intermediate fly-fishing lass experience or some fly-fishing experience is needed.

Campus	Section #	Cost	Sessions	Time	Day of Week	Start Date	Instructor
Boyce Campus	YFD-615-1280	\$149	8 Sessions	06:00PM-08:30PM	TR	06/08/21	Reeder

Warm Water Fly Fishing

Warm water fly fishing refers to fly fishing in waters that aren't cold enough to support trout or other cold water species like salmon and steelhead. In this course, you will learn how to target panfish, largemouth and smallmouth bass, musky, and carp with a fly rod. Why fly fish in warm water? Pound for pound, warm water game fish are some of the hardest fighting fish that swim! Warm water game fish are usually found close to home. And finally, fly fishing for warm water species can extend your fishing season well into the summer months - after the trout streams have warmed up. All aspects of warm water fly fishing will be covered, including: tackle, fly selection, retrieval techniques, casting, knots, habitat, and catch and release. The last session will be "on the water" at a private fly fishing only bass and panfish lake with your instructors.
