#### Writing the Short Story

A short story is a slice of life and it's the best place for new writers to hone their craft. Stories capture particular people and places, memories and images, and ideas and emotions that make up daily lives. Get started (or to get going again) and tap into thoughts, memory and imagination. Topics include developing structure, narrative, voice, plot and character; creating dialogue; and examining the work of key contemporary short story writers. Writing exercises and discussion will round out class sessions. The aim is to complete a short story by the end of the course. No previous writing experience is required.
